Profitable Info Services (PIS) for Classified ads Offering a Reward (CORS)*

I have begun to provide my unique PIS for CORS. The due reward is specified by the advertiser for a solver, pay only for success. So it is a Risk-Free Investment (RFI) with greater odds.

"No man is an island, entire of itself"(John Donne, 1624). Every one has one's own needs, can also do a bit to help others, and a reward is a catalyst for Win-Win. I do believe the PIS will:

1. be Available for *Every One* as both advertiser and solver;
2. attract people, also involve prospective matchmakers, to search and do for PI/CORS;
3. unearth potential resources and optimize solutions;
4. stimulate demands, first of all, to be online, and turn into virtuous circles;
5. create opportunities for RFI, work, fortune and success;
6. innovate business models and breed niches;
7. encourage the global economy and cooperation with the Internet;
8. recover \$680k seed funding, if any, in 1 year according to my Business Plan;
9. have an endless frontier of space for various demands i.e. markets; ...

Welcome to browse the Catalog/CORS, join in and recommend it. I am expecting everybody, whether as VC or user, to benefit from and to the PIS. Any comments or COR? Please.

* A COR includes a promise to pay a reward specified by the advertiser to anyone who performs conditions named in the ad, and anyone who, as solver, does perform the conditions accepts the offers. Reverse CORS(RCORS) are OK too.
